

AdBlue Flow Meter Systems type FLOWCOM 2000 for Tanker Vehicles

Advantages

- No moving parts in metering section
- High accuracy
- Long term stability
- Easy operation
- Electronic gas bubble sensor

Features

- Microprocessor electronics
- Serial interface RS232
- Data memory
- Quantity preselection
- Printing of daily reports
- European type approval
No.: DE-09-MI005-PTB005
based on MID
- Unit of measurement kg or Liter

Flow metering system with ticket printer in stainless steel enclosure

Components

Pump cabinet

Gas bubble sensor

DP-Transmitter

Ticket printer TM295

SWM Metering section

Temperature sensor PT100
